

October 2013

Dear NPLRA Member

**Re: Membership Survey**

To assist in our planning for the next year, we would like to solicit your input on issues which are important to you, as a local resident. We recognize that there are many important issues which cannot be addressed solely on our own, but we can still monitor developments and lobby for change where appropriate.

Could you please indicate below your top 5 priorities for action, by putting a number from 1 to 5 beside each of your choices.

Issue	Ranking
1.Weed Management	
2.Lack of fish	
3.Water levels	
4.Quarries	
5.Funding for TSW infrastructure	
6.Property taxes for waterfront owners	
7.Lake management; environment protection	
8.Marine wildlife	
9.Water quality	
10.Invasive species	
11.Municipal affairs monitoring	
12.Real estate development monitoring	
13.Geese population	
14.Arranging for speakers on hot topics	
15.Other(specify)	

Once you have marked your choices, please send the form back to us via e-mail, or send a separate e-mail to [membership@nplra.ca](mailto:membership@nplra.ca) indicating your choices. Thank you for your participation in this short survey. If you have other comments or suggestions on what the NPLRA can do for you, please indicate below. I encourage Board members to respond as well.

Comments: \_\_\_\_\_

Yours truly,

Miriam Newton, Director for Membership and Publicity NPLRA. [www.nplra.ca](http://www.nplra.ca)
