

## **Kawartha Lake Stewards Association Fall Annual Meeting**

**When:** Saturday September 30 from 10:00 – 12:00

**Where:** The Lakehurst Community Hall (979 Lakehurst Circle Rd.)

*Please join us in a morning of scientific inquiry, presentations, and conversation regarding the health of our important Kawartha Lakes.*

### **With the guest presentation by:**

**Dr. Brian F. Cumming: Kawartha Lakes Paleolimnological Study (Collection, Analysis and Age-dating of Sediment Cores): "Understanding our past to plan for the future"**

Dr. Brian F. Cumming: Professor of Paleolimnology and Aquatic Ecology, Paleoecological Environmental Assessment and Research Laboratory (PEARL) Queens University. Dr. Cumming's major interest is researching how ecological and environmental change occurs in lakes over decades to centuries, from both natural (e.g., climate, fires) and human-based stressors (e.g. acidic deposition, nutrient enrichment, metal deposition, etc).

**This presentation will provide the preliminary results of the sediment core samples taken within the Kawartha Lake continuum.**

The 2017 KLSA Annual General Meeting will be held prior to the presentation. Hear about what other residents and Lake Associations are doing to protect and enhance the Kawartha Lakes water systems.

*Let's dive deep into the past to learn how to conserve our lakes for the future.*

**ALL ARE WELCOME ---- ADMISSION FREE**

**We welcome donations to support the work of the KLSA.**

**For more information see our website: <https://klsa.wordpress.com/>**
